LUCIDI, PEVERE

Following initial training on the Milanese design scene, Paolo Lucidi and Luca Pevere set up their own studio in Udine, engaged in a constant challenge to create new product types, in search of unprecedented materials and technologies.

Synergy with Foscarini research led to the birth of the Aplomb lamp collection, comprising shapes balanced between architecture and design made with an exclusive cement paste; Bahia, a sophisticated graphic sign and a bright game of lights and shadows; Lake, a coloured spot with an organic and asymmetric shape.
