

Twice as Twiggy Grid, outdoor

by Marc Sadler

FOSCARINI

DESCRIPTION

A summer evening, in the garden: gazing at the moon through dense foliage. It is the Twice as Twiggy Grid effect: a circle of light seems to float in the air, trapped in the diffuser screen that contains it.

MATERIALS

Coated fiberglass-based composite material, PMMA, coated metal and aluminium

MARC SADLER

Marc Sadler boasts lengthy experience as an industrial designer in the field of sports, which has often led him to experiment with new materials and innovative production processes.

This innovative and experimental approach has become his modus operandi, even when he designs for sectors which are traditionally more focused on the styling component. He has won four Compassi d'Oro ADI, including the one for Mite and Tite in 2001, for projects which have become genuine icons in the Foscarini collection, together with Kite, Twiggy, Tress and Jamaica, each one marked by technological and styling innovation.
